SPRINKLER

Self-priming centrifugal pumps

PERFORMANCE RANGE

- Flow rate up to **300 l/min** (18.0 m³/h)
- Head up to 25.5 m

APPLICATION LIMITS

- Manometric suction lift up to **9 m** (HS)
- Liquid temperature between -10 °C and +40 °C
- Ambient temperature up to +40 °C
- Max. working pressure 10 bar
- Continuous service S1

CONSTRUCTION AND SAFETY STANDARDS

EN 60335-1 IEC 60335-1 CEI 61-150

CERTIFICATIONS

Company with management system certified DNV ISO 9001: QUALITY

CE

INSTALLATION AND USE

Suitable for use with clean water and with liquids that are not chemically aggressive towards the materials from which the pump is made. The self-priming **SPRINKLER** pumps are designed to pump water even in cases where air is present. Because of their reliability and the fact that they are easy to use, they are recommended for use in domestic and civil applications such as the distribution of water in combination with pressure tanks, and for the irrigation of gardens and orchards, etc.

Installation needs to be undertaken in well ventilated closed areas or anyway protected from bad weather.

OPTIONS AVAILABLE ON REQUEST

- Other voltages or 60 Hz frequency
- IPX5 protection

9 ELECTRIC MOTOR

SKRm: single-phase 230 V - 50 Hz with thermal overload protector incorporated into the winding. **SKR**: three-phase 230/400 V - 50 Hz.

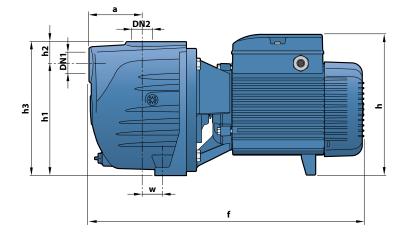

The three-phase pumps are fitted with high performance motors in class IE3 (IEC 60034-30-1)

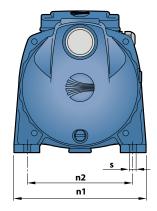

- Insulation: class F
- Protection: IP X4
